

## Certificate of Analysis

Product Description	1%TTC Solution		Cat. No.	EX-P-79B-10mL
Specification	10mL /bottle		Batch No.	240618
Basic Requirements	Appearance	Liquid	Color	Colourless
	Odor	Non-pungent odor	Gel Strength	-
	pH (25°C)	-	Loss On Drying	-
	Microbial Contamination	No bacterial growth	Clarity	Good
Microbiological Test	Control Microorganism	Evaluation Standard	Test Result	Characteristic Reaction
	<i>Enterococcus faecalis</i> ATCC 29212	Good	Good	Red colonies
	<i>Escherichia coli</i> ATCC 25922	Inhibited	Inhibited	-
	<i>Enterobacter aerogenes</i> ATCC 13048	Inhibited	Inhibited	-
Remarks	<p>1.Add 1mL EX-P-79B-10mL 1%TTC solution(1 vial) to 100mL EX-CM165A basis.                  2.The inoculation amount:ATCC29212:10~100CFU/mL;Others:1,000~10,000CFU/mL.                  3.The incubation time:36°C/48h (The time that result is obtained).</p>			
Test Result	Qualified
